

OPEN JOINT STOCK COMPANY "UDMURTNEFT"

Reference letter

on 3D CMP data processing by "Geoleader" Ltd. for JSC "Udmurtneft"

"Geoleader" Ltd. is a contractor of JSC "Udmurtneft" on orders on 3D CMP data processing since 2007.

The total volume of seismic data processed by "Geoleader" Ltd. is about one thousand sq.km. that allows to objectively judge the quality of performed works.

A good quality of processed seismic data, levels of noise reduction, quality of NMO and DMO calculation and input should be noted. That allowed not only to increase the resolution of resulting time slices, improve signal to noise ratio, but to ensure a high accuracy of structural imaging.

Our long term cooperation with "Geoleader" Ltd. shows that specialists of this company can fulfill obligations qualitatively and within the period.

Using the latest advances in seismic processing, deep knowledge of geological structure of the surveyed objects, the specialists of "Geoleader" Ltd. provide highly informative reports done in a professional manner on the contracts performed.

Deputy Director General –
chief geologist of JSC "Udmurtneft"

Y.A.Podkopaev
